During this webinar, attendees considered the purpose of research in developing a deeper understanding of a design brief. Attendees also observed and analysed student engagement with three research strategies designed to support them when exploring a design brief in an Applied Technology classroom.

What is included in this PDF?

Capturing
Thoughts

1. Capturing thoughts strategy
Included is a sample research activity for students developed by the JCt4 Applied Technology team. This resource was observed by attendees on the night and focused on students capturing their thinking in response to the framing questions strategy.
