Free Friendship Flash Cards

How to Be a Good Friend Flashcards

Use this set of illustrated flashcards to teach your children different ways that they can be a good friend. Each card contains a suggestion of how pupils can be a good friend, as well as acting as a discussion point with your class. This resource is a great way to develop early social skills and can be used as part of a circle-time activity or with a small group.

Choice Cube

Physical Activity Cube

To get a little more physical activity into our days, I made this exercise cube for my kids! A great way to help kids exercise and get out some wiggles! Using white cardstock, cut out 6 squares. (Mine are about 6"x6" squares.) Write the activities on each square.
