

All teachers in Special Schools are welcome to attend Junior Cycle Subject Cluster CPD. This CPD is designed and facilitated by the Subject Teams within JCT. Resources and materials used during Subject Cluster CPD this academic year can be found on our website at this [link](#). Should any Special Schools wish to register to attend Subject Cluster CPD next academic year, please email info@jct.ie with your request.

For Mainstream CPD Support please click on the orange button on [jct](#) registration.

Newly opened special schools or special classes please email
info@jct.ie

There are a large range of assessment resources available on our website. All of our L1LPs assessment resources are available [here](#) and all of our L2LPs assessment resources are available [here](#).

[illegible][illegible]

- L1LPs and L2LPs are assessed through formative and summative means on a continuous basis over the three years of Junior Cycle.
- All L1LPs and L2LPs assessments are school based, and portfolios can be presented to the students when they receive their JCPAs. Schools are not required to retain copies of the portfolio once the JCPA has been presented.
- L1LPs and L2LPs can be reported on through PPOD if the student has completed SEC Junior Cycle subjects at level 3, or through JCAD if the student has completed L1LPs and/or L2LPs only. The JCPA certificates are generated by both JCAD and PPOD databases.

CSI Exploring Forensic Science Level 2 Short Course

Amgen Biotech Experience (ABE) Ireland trains secondary school teachers how to carry out molecular biology experiments, and then loans them the equipment and reagents they need to carry out the experiments. The training and equipment are supplied free of charge. ABE Ireland has a 'crime scene' lab as part of their portfolio which aligns well with the Level 2 short course 'CSI: Exploring Forensic Science', and they are looking to create a focus group of critical friends who could advise on how to create a resource pack that would allow their crime scene lab to be used as part of this short course. If this is something you or a colleague would be interested in, please email lisa.kelly@jct.ie. Details of ABE's free workshops, can be found on their [website](#)
