

Fund-Ups Sheet

Share your money out between these organisations.

<p><u>Seeds for Life</u> <u>Total:</u></p> <p>We are an organisation that develops crops which can grow in drier climates. We will provide these crops to people living in countries which suffer from drought.</p>	<p><u>Be Safe Barriers</u> <u>Total:</u></p> <p>We make barriers which protect people and their homes from flooding. We can help protect people living in areas that flood as sea levels rise.</p>
<p><u>Greener Energy</u> <u>Total:</u></p> <p>We build wind turbines and solar panels to get energy from these renewable sources instead of fossil fuels.</p>	<p><u>Rebuild, Restart</u> <u>Total:</u></p> <p>We rebuild roads, bridges and buildings damaged by floods and storms in poorer countries.</p>
<p><u>Food Relief Now</u> <u>Total:</u></p> <p>We provide instant relief to those people who are suffering from hunger as a result of droughts.</p>	<p><u>Plant for All</u> <u>Total:</u></p> <p>We support people planting trees. These trees help protect the soil and help people grow more food.</p>
<p><u>Educate and Unite</u> <u>Total:</u></p> <p>We help children learn about climate change. We also bring people together to work to stop climate change. Working together people can do more.</p>	<p><u>Reduce, Revive</u> <u>Total:</u></p> <p>We work to stop people buying things they don't need. This means fewer things are made, fewer things are wasted, less money is spent and less fossil fuel is burnt.</p>
<p><u>Invent and Create</u> <u>Total:</u></p> <p>We help people invent machines which are better for the environment, from tractors to washing machines.</p>	<p><u>Turn it off for Earth</u> <u>Total:</u></p> <p>We tell people to make sure they turn off lights and electrical devices when they are not using them and we encourage people to cycle instead of using their cars.</p>
<p><u>Moving away from Methane</u> <u>Total:</u></p> <p>We produce good vegetarian alternatives to meat products and encourage people to eat less meat so that less methane is emitted which causes climate change.</p>	<p><u>Leading from the Top</u> <u>Total:</u></p> <p>We talk to governments about what they must do to stop climate change. Governments have the power to change laws on how energy is produced and on how much carbon dioxide we emit. We need action from governments to make a real difference to climate change.</p>
