Framing Questions

This resource was developed as part of the webinar,**" Where to start in exploring a design brief in an Applied Technology classroom?"**, which took place on the 01/04/2020. All materials used during this workshop can be viewed in the Technologies section of www.jct.ie within the CPD Workshops tile.

During this webinar, attendees considered the purpose of research in developing a deeper understanding of a design brief. Attendees also observed and analysed student engagement with three research strategies designed to support them when exploring a design brief in an Applied Technology classroom.

What is included in this PDF?

Framing Questions

1. Framing questions strategy
Included is a sample research activity for students developed by the JCt4 Applied Technology team. This resource was observed by attendees on the night and focused on students asking questions to better understand a problem or situation.
