The Idea Machine is an interactive website where creativity and problem solving can be developed. This website automatically generates 3 prompts for an idea based on the user, industry and sense. A design brief can then be based around this.

Feel free to share your students' experiences with us, with their permission, via Twitter **@JCt4ed** or **john.forrest@jct.ie**

Please ensure your students are aware their work may be seen on Twitter if sent to JCT. Teachers, please ensure if emailing sample student work that you do so using your school/work email address.
